Hiring Manager

United Nations Development Programme (UNDP)
QR88+RHV, Nairobi, Kenya

Subject: Application for Full Stack Developer Internship

Dear Hiring Manager,

I am excited to apply for the **Full Stack Developer Internship** at **UNDP**. As a passionate and skilled developer, I am eager to contribute my technical expertise in web and application development to your esteemed organization. Given UNDP's commitment to innovation and sustainable development, I am motivated to apply my skills to projects that create meaningful impact.

I have gained hands-on experience as a **Senior Web Developer** at PattRentals and Macha Electricals, where I developed **API integrations**, optimized website functionality, and enhanced user experiences across various platforms. My proficiency in **JavaScript, HTML5, CSS, SQL, WordPress, and graphic design** allows me to build scalable and user-friendly applications. Additionally, I am currently pursuing a **Bachelor of Arts in Information Science** at the **University of Nairobi**, and I recently completed a **software and mobile app development program** at **Inceptor Institute of Technology**, equipping me with strong full-stack development skills.

I am eager to apply my expertise to real-world projects at UNDP and learn from experienced professionals in a collaborative environment. I would welcome the opportunity to discuss how my skills align with your needs. Thank you for your time and consideration—I look forward to hearing from you.

**Best regards,
Victor Gatecha**
